HYDROSCIENCE AND ENGINEERING 2026

International Conference on Freshwater Resources and Environmental Sustainability of Mongolia

Conference Program

Opening part | 08:30–10:00

Time	Item	Details
08:30–09:00	**Registration with breakfast**	Participant registration
09:00–09:30	**Opening Ceremony**	Welcome addresses by **Dr. Ayurzana Badarch**, The conference chair, MUST **Mr. Bulgantamir Nyamdorj**, Director of FWRNCC Greetings by H.E. Mr. **Sandag-Ochir Tsend**, Minister of Environment and Climate change of Mongolia **National Anthem of Mongolia** Greetings by H.E. Mr. **Masaru Igawahara**, Ambassador Extraordinary and Plenipotentiary of Japan to Mongolia Opening remarks Professor **Damdin Ts**, Founder of Freshwater resources and Environmental protection center Greetings by H.E. **Bat-Erdene Bat-Ulzii**, Member of Parliament and Standing Committee on Environment, Food and Agriculture Greetings by H.E. **Munkhbayasgalan Luvsanbyambaa**, Member of Parliament and Water Ambassador
09:30–09:40	**Group Photo**	Official conference group photograph
09:40–10:00	**Conference Orientation**	Greetings by Professor **Batbayar Zeneemyadar**, Director of Water Agency of Mongolian Government Greetings by Mr. **Ganzorig Sharav**, President of Mongolian Society for Water Engineering Program overview, technical guidance and presentation instructions by **Ayurzana Badarch**, The conference chair, MUST

Morning Technical Session | 10:00–12:00 – Chaired by FWRNCC

Time	Item	Topics
10:00–10:30	**Keynote Lecture by Professor Tadanobu Nakayama**, Prime Senior Researcher at National Institute for Environmental Studies, Japan (Online)	Assessment of grassland carrying capacity under constraint of water resources in Mongolia by making mutual comparisons of environmental indicators
10:30–10:50	Presenter **Qinxue WANG**, National Institute for Environmental Studies, Japan (Online)	Water Security in Mongolia Through a Storage-to-User Assessment: A Critical Review
10:50–11:10	Presenter **Chandmani Dambabazar**, Senior researcher (In person)	Solutions for Planning Livestock Water Supply in Mongolia in Response to Climate Change
11:10–11:30	Presenter **Munkh-erdene Batsaikhan**, Center for Climate Change and Research Cooperation (In person)	Assessing Wetland Water Conditions Using Multispectral Drone Mapping: A Case Study of the Darkhad Depression and Ogii Lake Basin
11:30–12:00	**Keynote Lecture by Dr Michael Heiner**, The Nature Conservancy, USA (Online)	A National Assessment of Freshwater Ecosystem and Biodiversity Conservation
12:00–12:20	Presenter **Ayurzana Badarch**, School of Civil Engineering and Architecture, MUST (In person)	Reforming Mongolia's Water Law: A Comparative Assessment of Legal Frameworks for Water Bodies, Floodplains, and Protection Zones

Lunch | 12:20–13:30

Time	Item	Details
12:20–13:30	Lunch	Lunch and Networking

Afternoon Technical Session I | 13:30–15:40 Chaired by Dr Uyanga Tumurtogoo, MUST

Time	Item	Topics
13:30–14:00	**Keynote Lecture by Professor Wei Liangliang**, Harbin Institute of Technology, China (Online)	Rainwater Runoff Pollution Control and River Basin Water Environment Management
14:00–14:30	**Keynote Lecture by Dr Ganbaatar Khurelbaatar**, Helmholtz Centre for Environmental Research (UFZ), Germany (In person)	Urban water Challenges in German Cities: Research and Solutions
14:30–14:50	Presenter **Dr Frank Hüesker** , Helmholtz Centre for Environmental Research (UFZ), Germany, (In person)	Blue-Green City Coaching project
14:50–15:10	Presenter **Batchuluun Batsuren**, Spatial Academy NGO (In person)	Mapping Flood Risk Zones and Assessing Household and Child Exposure in Ulaanbaatar Using Geospatial Analysis and Decision Modelling
15:10-15:30	Presenter **Boldbaatar Nyamjav**, School of Civil Engineering and Architecture, MUST (In person)	Comparative Study on the Treatment Efficiency of Ulaanbaatar's Old and New Central Wastewater Treatment Plants

Refreshment Break | 15:10–15:50

Time	Item	Details
15:30–15:50	Refreshment Break	Tea/coffee and networking

Afternoon Technical Session II | 16:00–17:30 Chaired by FWRNCC

Time	Item	Details
15:50–16:10	**Keynote Lecture by Prof. Ui Wook Hwang,** Kyungpook National University, South Korea (In person)	Freshwater Mussels in a Changing Climate: Evolutionary Genomics of East Asian Nodularia and Lessons for Conservation and Citizen Education
16:10–16:30	Presenter **Tsolmon Adiya**, Institute of biology, MAS (In person)	Comparative Alpha Diversity Dynamics of Prokaryotic and Eukaryotic Communities Along the Tuul River
16:30–16:50	Presenter **Belgudei Batbayar**, Water Recovery LLC (in person)	Updated Hydrogeological Mapping and Hydrogeochemical/Isotopic Analysis of the Ganga Lake Basin
16:50–17:10	Presenter **Gantsetseg Uuriintuya**, MAS (In person)	Hydrogeochemistry of Lake Uvs: Variations in Major and Trace Element Concentrations Driven by Evaporative Concentration and Carbonate Precipitation
17:10–17:30	Presenter **Munkhtsatsral Ganzorig**, School of Food, Light Industry and Design, MUST (In person)	Physicochemical changes and antibacterial activity of plasma-activated tap and underground water
17:30–17:50	Presenter **Uyanga Batnasan**, School of Technology in Darkhan-Uul, MUST (In person)	Properties of Radon and Comparison of Methods for Reducing Its Concentration in Water
17:50–18:00	**Awards & Closing Ceremony**: Certificate of presentation and Gratitude for Scientific members - Bulgantamir Nyamdorj, Ganzorig Sharav, Boldbaatar Nyamjav Best research award – President Ganzorig Sharav, Mongolian Society for Water Engineering Acknowledgement, Conference summary and closing remarks – Organizing committee
